BANWA

PROJECT QUOTE

Quote Ref: BNW-2026-001
Date: September 14, 2026
Validity: 30 Days (Until Oct 14, 2026)

PREPARED FOR
Laurence Cylde Moreno, Alyssa Moreno, & Dhanielle Sim
Project: Official Landing Page
Client: Banwa

PREPARED BY
Jireh Tumbagahan
Email: jirehtumbagahan@gmail.com
GitHub: github.com/Jireh-sama/banwa

1. Project Overview & Objectives

This project quote covers the design, development, optimization, and deployment of an official landing page for **Banwa**. The website will establish Banwa's digital presence with responsive design, search engine discoverability, and cloud hosting.

2. Scope of Work & Deliverables

Deliverable & Description	Timeline	Amount
Landing Page UI/UX Design & Layout Creation of a clean, responsive layout tailored to the Banwa brand aesthetic. Includes curated typography, color palette, intuitive visual hierarchy, and mobile-first responsive styling across desktop, tablet, and mobile devices.	Milestone 1	PHP 3,500.00
Next.js Frontend Architecture & Development Modern web implementation built with Next.js and Tailwind CSS. Includes modular page components, structured brand presentation, smooth interactions, inquiry/contact capture, and standard web performance optimization.	Milestone 1	PHP 3,500.00
Search Engine Optimization (SEO) & Social Sharing Comprehensive on-page SEO setup: targeted keyword metadata, Open Graph & Twitter Cards for rich previews when shared on social media, structured heading hierarchy, and search engine indexing readiness.	Milestone 2	PHP 1,500.00
Cloud Deployment, Git Repo & Production Handover Complete version-controlled GitHub repository handover, automated deployment pipeline to Vercel with automatic SSL/HTTPS security certificates, and full source code ownership transfer.	Milestone 2	PHP 1,500.00

Subtotal (Landing Page Development)	PHP 10,000.00
Flat-Rate Startup Package Adjustment	PHP 0.00
TOTAL PROJECT INVESTMENT	**PHP 10,000.00**

3. Payment Schedule & Milestones

Milestone	Split	Trigger Condition & Deliverable	Amount (PHP)
Milestone 1: Project Deposit	**50%**	Due upon agreement to initiate landing page UI/UX design, Next.js environment, and core component implementation.	**PHP 5,000.00**
Milestone 2: Final Handover	**50%**	Due upon client review, production deployment to Vercel, and GitHub repository ownership transfer.	**PHP 5,000.00**

4. Technology Stack & Infrastructure

Core Framework: Next.js (App Router, Server Components)
Styling: Tailwind CSS + Responsive Design
SEO: Open Graph & Twitter Card Metadata

Hosting: Vercel Cloud Platform
Security: Automatic SSL / HTTPS Encryption
Version Control: GitHub Repository (Jireh-sama/banwa)

5. Terms, Inclusions & Exclusions

- **Source Code Ownership:** Full ownership and intellectual property of the custom Next.js codebase and assets are transferred to the client upon receipt of the final milestone payment.
- **Domain Name Registration (Excluded):** Domain registration and renewal fees (e.g. *banwa.ph* or *banwa.com*) are **not included** in this quote. The client will purchase the domain directly from their registrar of choice, and assistance with DNS configuration to Vercel will be provided.
- **Cloud Deployment:** Production deployment to Vercel is included, providing automated builds and secure HTTPS/SSL certificate configuration.
- **Warranty & Bug Fix Support:** Includes 14 calendar days of complimentary post-launch support for bug fixes, display adjustments, and minor text/image updates.

6. Acceptance & Sign-off
